STAT

       a.   Eliminate [ ] from variable "AN".

       b.   To the employees included in variables "I" and "IN", please include all other employees occupying "C" and "CN" type positions.

       c.   If possible, it would be useful for the report information to be sorted down to the DD/OP organizational level.

       d.   For this running, it would also be useful to have a name list for the entries in variables "D", "E", "EN", "F", "1", and "IN".
